Flash Portable Lamp

By Qeeboo

Description

The Flash Portable Lamp transforms the ordinary shape of handheld flashlight into a charming and clever portable lamp. The lamp's translucent polyethylene diffuser emerges from the flashlight like a beam of light to diffuse light and provide a base for support. An integrated LED light source is powered by a rechargeable battery, allowing Flash to be placed wherever its light is needed. An included remote control adjusts the brightness and selects the color of the light to 2700K white or 15 RGB colors. Includes USB charging cord (requires US wall plug, not included).

Shown in ivory / white

Specifications

COLOR	White
BODY FINISH	Ivory
