Giogali Cube Pendant By Vistosi

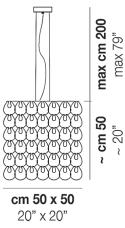

Description

Originally conceived in 1967 by Angelo Mangiarotti, the Giogali Cube Pendant derives both its name and shape from the Italian word giongher, referring to the rope used to tie a horse or ox-driven cart to the yoke. The pendant is composed of a multitude of small, rope-like crystal hooks, which are linked together to form a net of glistening glass. The crystal is draped around the light's frame, obscuring the light source and creating a gleaming cascade of light. With its delicate and glamorous aesthetic, Giogali will enhance any interior with an elegant sparkle. Note: Due to the weight of the fixture, additional ceiling support is required.

Shown in matte bronze / transparent
