# Minigiogali Table Lamp

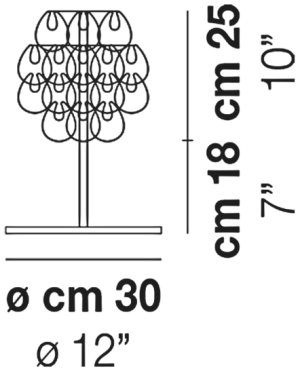

By Vistosi

## Description

Originally conceived in 1967 by Angelo Mangiarotti, the Minigiogali Table Lamp derives both its name and shape from the Italian word giongher, referring to the rope used to tie a horse or ox-driven cart to the yoke. The lampshade is composed of a multitude of small, rope-like crystal hooks, which are linked together to form a net of glistening glass. The crystal is supported by a sleek metal stem to create a gleaming cascade of light. With its delicate and glamorous aesthetic, Giogali will enhance any interior with an elegant sparkle. On/off switch located on cord.
