## Minigiogali Square Ceiling Light

By Vistosi

### Description

Originally conceived in 1967 by Angelo Mangiarotti, the Minigiogali Square Ceiling Light derives both its name and shape from the Italian word giongher, referring to the rope used to tie a horse or ox-driven cart to the yoke. The fixture is composed of a multitude of small, rope-like crystal hooks, which are linked together to form a net of glistening glass. The crystal is draped around the light's frame, obscuring the light source and creating a gleaming cascade of light. With its delicate and glamorous aesthetic, Minigiogali will enhance any interior with an elegant sparkle.

Shown in matte bronze / transparent
