Vega Table Lamp

By Vistosi

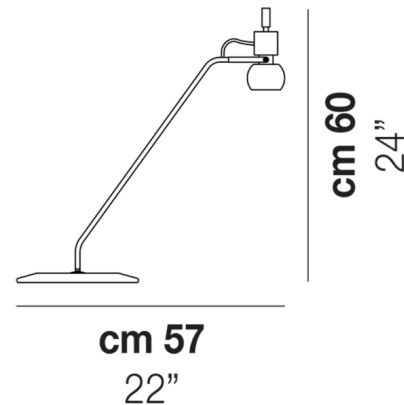

Description

Originally conceived in 1982 by Michele De Lucchi, the Vega Table Lamp has become an iconic post-modernist design. De Lucchi was a key figure in the Memphis design movement, and Vega showcases the hallmarks of the Memphis style with its use of simple geometric forms and bold, contrasting colors. The lamp's articulated head is capped by a translucent glass globe shade and can be aimed to direct light precisely where it is needed. On/off switch located on cord.
