Quincy Pendant

By Dainolite

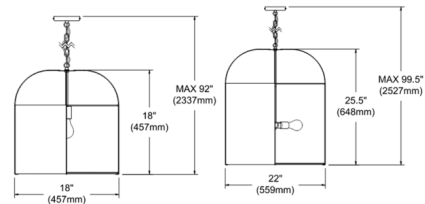

Description

The Quincy Pendant uses its metal frame to both support the shade and to create a highly unique design detail. The frame's arms curve out from the central support stem, forming an open cage structure before fitting snugly around the fabric drum shade. At the ends, the arms curve again to hold the bottom diffuser in place. The shade and diffuser produce a rich and even wash of ambient light over a kitchen island or living space.

Shown in matte black / white
