## Noren S/72 Pendant By Bover

### Description

The Noren S/72 Pendant is named after the traditional Japanese fabric dividers hung in doorways and windows or between rooms. These lightweight, decorative fixtures are constructed out of Basotect sound-absorbing foam panels covered in fire-resistant fabric, rated acoustic absorption class A. Integrated LEDs cast a downlight or both an uplight and downlight, providing a soft layer of ambient illumination. Multiple Noren pendants suspended together can create a dramatic, sculptural installation that manages light and sound and defines your space. Note: Requires a 2 x 4 inch junction box.
