Flint Multi Light Pendant

By Kalco

Description

The Flint Multi Light Pendant adds dramatic style and design to any space with the natural Alabaster. Suspended by beautiful jewelry chain, this fixture is flexible enough to install anywhere.One of the most defining characteristics of the Flint Pendant is its use of Natural Alabaster. Because alabaster is a stone formed by nature over millennia, no two shades are ever exactly alike. Each capsule shade features its own distinct inchfingerprint inch of veining, ranging from subtle white-on-white textures to deep amber or grey-toned ribbons. You may notice slight differences in opacity and color between the shades on your fixture. These are not flaws but rather the hallmarks of authentic stone. When unlit, the stone appears cool and architectural. Once illuminated, the alabaster warms significantly, casting a soft, ethereal glow that showcases the inner depth of the stone.Note: This product contains natural materials which may result in slight differences between photo shown and product received.

Shown in winter brass / alabaster

Specifications

COLOR	Alabaster
BODY FINISH	Winter Brass
WATTAGE	100W
DIMMER	Low Voltage Electronic
DIMENSIONS	37.5"W x 15.25"H
