Oki-Nami Chair

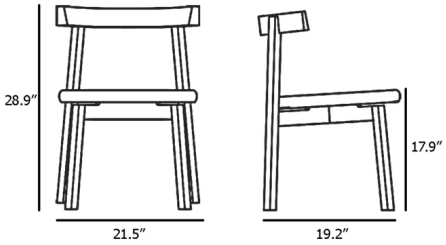

By Case

Description

The Oki-Nami Chair was originally designed specifically for the Oki-Nami Japanese restaurant in Brighton, England by Nazanin Kamali in 2008. Kamali's goal was to create furniture that embodied the craftsmanship and attention to detail of Japanese decorative arts, while being comfortable and durable enough to withstand the rigors of a restaurant environment.The chair features a circular leather seat supported by an angular, solid wood frame. The curved backrest wraps around to also serve as an armrest while providing comfort and support.
