Counterbalance Chandelier

By Blueprint Lighting

Description

The Counterbalance is an exploration of balance and equilibrium, inspired by the mobiles of Alexander Calder as well as French and Italian modernism. Spun aluminum shades are held by slim arms that rotate 360 degrees, enabling you to create a configuration customized to your space. Commanding attention with its fluid architectural silhouette and thoughtful palette of colors, the Counterbalance is a stylish, intriguing centerpiece for your foyer, living room, or dining room.
