## Peona Table Lamp By Simone & Marcel

### Description

The Peona Table Lamp experiments with harmony and contrast through the repetition of spherical lines in different materials. The lamp's base consists of a cylinder in wood, marble, or alabaster with a rounded top. A brass hemisphere rests between the base and the shade to add a contrasting element while echoing the curve of the base. The cotton shade provides soft, diffused illumination. On/off switch located on cord.

Shown in tobacco alabaster / ecru cotton
