Peono Table Lamp

By Simone & Marcel

Description

The Peono Table Lamp experiments with harmony and contrast through the repetition of spherical lines in different materials. The lamp's base consists of a cylinder in wood, marble, or alabaster with a rounded top. A brass hemisphere rests between the base and the shade to add a contrasting element while echoing the curve of the base. The look is completed with an opal acrylic dome shade to complement the overall look and provide diffused illumination. Includes 59 inch black cord with in-line on/off switch.

Shown in tobacco alabaster / opal

Specifications
