TriAngle Stool

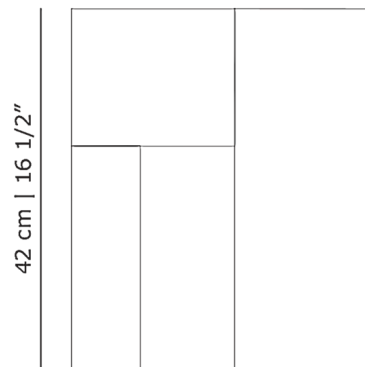

By Karakter

Description

The TriAngle Stool consists of 12 pieces of solid wood neatly joined together like a puzzle to form a precise and distinguished design that can serve as both a stool or side table. Angled legs add a touch of visual interest to the table's square silhouette, and the wood's natural grain is placed on full display. Designer Aldo Bakker intended for the wood to wear and patina over time to add personal character to each piece.

35 cm | 13 3/4"
