Farris Chandelier

By Crystorama

Description

The Farris Chandelier is a study of simple elegance. The two-tier frame is made up of thick solid glass rods and a sleek and lean circular metal frame in a brushed Vibrant Gold brass finish. The upper metal rods that connect both tiers to the canopy are round and have a slight eased bend as they meet the round frame to add a little softness. The Farris chandelier is as beautiful to look at from the bottom as it is to see it from the side; the scale and size of the piece feel luxurious and substantial without feeling clunky or too heavy. Note: Requires additional ceiling support for fixtures over 50 pounds.

Shown in vibrant gold / clear
