Model 597 Floor Lamp By Gubi

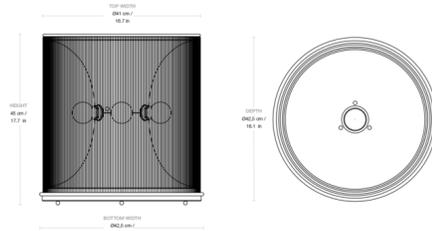

Description

First released in 1961, the Model 597 Floor Lamp helped to launch Gianfranco Frattini's career as a lighting designer. Model 597's viscose fringe sides were inspired by the fringed curtains commonly seen on the entryways of Italian bars and shops in the 1950s. An array of bulbs illuminates the lamp from within, creating a soft ambient glow as light passes through the fringes. A light with an aluminum reflector on top of the lamp also provides upward lighting. An on/off switch on the cord allows the uplight to be switched on separately from the base lights. Note: A mirrored bulb (not included) is recommended for the uplight to reduce glare.
