## Floret Linear Pendant By Hubbardton Forge

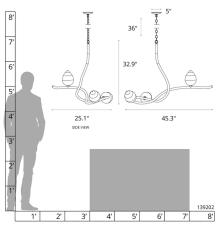

## Description

Conceived by the visionary mind of Hubbardton Forge's Ori Goldberg, the Floret Linear Pendant offers an organically inspired form.

Simultaneously sculptural and minimalistic, Floret's contemporary silhouette is accented with swirled art glass shades crafted by the master glassmakers at Lexington Glassworks in Asheville, NC. This sophisticated but whimsical fixture will serve as a striking statement piece in any interior.

Shown in ink / cirrus art glass
