## Strand Beaded Mirror

By Jamie Young Company

### Description

Hundreds of hand carved wood beads are arranged one at a time, by size and shape, to form the glorious frame that surrounds this round wall Strand Beaded Mirror. The wood is either naturally finished, allowing the intrinsic grains and striations of each piece of wood to become a part of the design, or given a clean white finish, keeping the look breezy and casual. As no two beads will be the same, no two mirrors will be identical.
