AJ Garden Bollard 24VDC

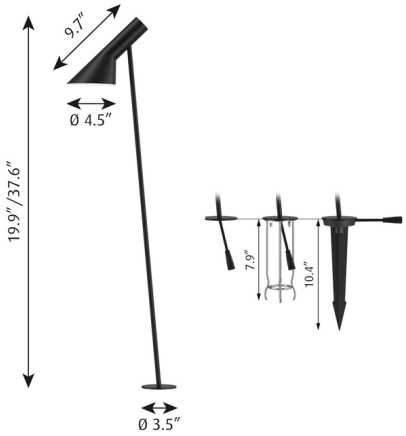

By Louis Poulsen

Description

Originally designed for the SAS Royal Hotel in Copenhagen, the AJ family is a classic with graphic lines and simple elegance contributed to the hotel's modernist style. Made of cast aluminum with a fixed head in a textured finish with the inside of the shade painted white allowing for a reflection of light. Choice of three mounting options: baseplate, anchor, or spike. The spike mounted bollard is for use in soil or gravel and includes weatherproof cables and connectors for above-ground runs. The anchor mounted bollard is for use in casting in a new concrete pad. The baseplate mounted bollard includes a baseplate for anchoring to decks and floors. Adapter is positioned externally from the fixture and can run up to 6 bollards up to maximum distance to last bollard of 30m. Uses standard cables and connectors which are supplied. The AJ Garden Bollard requires a 24VDC remote power supply, sold separately.
