Tula Wall Sconce

By Mitzi

Description

The Tula Wall Sconce experiments with scale, geometry, and material to create a timeless fixture that is familiar but unexpected. Tula is composed of a candlestick-style socket supported by a curved arm typical of a traditional sconce. However, this vintage-inspired element is contrasted with a pair of marble discs for a modern, geometric aesthetic. The smaller marble plate can be repositioned into left or right configurations, allowing for a symmetrical look when two sconces are used to flank a doorway or bed.

Shown in aged brass / white marble

Specifications
