## Pendulo Premium Clock By Nomon

## Description

The Pendulo Premium Clock pays tribute to the grandeur of traditional grandfather pendulum clocks with a streamlined, minimalist aesthetic. Pendulo consists of a frameless clock with wooden hands that seems to float in mid-air thanks to slim suspension cables. A pendulum-like accent dangles below to add a visual weight to the design. The clock may be installed on the wall or hung from the ceiling like a pendant, making it particularly well suited to stairways and foyers in large spaces.

Shown in walnut / brass
