Makin Swing Arm Wall Light

By Troy Lighting

Description

The Makin Swing Arm Wall Light is stylish and functional, built with a pivoting shade and articulating arm for adjusting light direction. Its subdued finish works well with many color palettes, and knurling on the lamp socket and a braided black cord add vintage industrial character. Place this lamp by a bed or in a small reading nook, or use it as task lighting in a work space. Can be hardwired or a plug-in.

Shown in patina brass / soft blue
