Manti Wall Sconce

By Troy Lighting

Description

The Manti Wall Sconce is a reflector sconce embodying modern industrial style. A cup emits light upwards to reflect off of a glass shade above, which can pivot to direct the light. Knurled detailing above the shade and a braided fabric cord add to the industrial character of the piece. The Manti brings chic, unique style and a warm glow of indirect ambient light to your space. It can be installed as a hardwired or plug-in sconce.

Shown in patina brass / soft sand
