Doblecara Rug By Nanimarquina

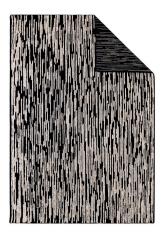

## Description

The Doblecara Rug, designed by Ronan Bouroullec, reflects his spirit of geometry through subtle linear and intermittent strokes ending in a blurred point, creating a sense of movement in the viewer's eye. The rug is a reversible rug, both sides of which can be enjoyed. The main side shows the design with the most personality, where the clear lines appear thanks to the different levels between techniques, while the 'B' side is the most subtle and delicate one, where its raw tone with different highlights stands out.

Shown in black
