Re-Rug Rug

By Nanimarquina

Description

The Re-Rug Rug emerged from the decision to use the wool leftovers accumulated by our suppliers. Each Re-Rug uses 1kg/m2 of reprocessed wool, thereby directly helping to shrink unmanaged waste, as well as reducing CO2 emissions, since no virgin material needs to be produced or transported. The result is a unique, circular collection that is composed of 50% virgin wool and 50% reused wool.
