Gravity Smart Ceiling Fan with Light

By Hunter Fan

Description

The Gravity Smart Ceiling Fan with Light combines a simple motor housing with straight wood-patterned blades, complementing many interior settings from an industrial loft to an open concept farmhouse dining area. Its 6-speed WhisperWind DC motor and SureSpeed Guarantee ensure quiet operation with high air velocity for faster cooling, and an integrated LED module provides ambient illumination. With its built-in SIMPLEconnect Wi-Fi functionality, the fan can be controlled with your smartphone or other smart device, or through a smart home system such as Amazon Alexa, Google Home, or Apple HomeKit. The fan also comes with a handheld remote control and wall cradle. The control enables fan on/off, speed adjustment, forward/reverse, light on/off and dimming. Optional accessories are sold separately.
