Melt Portable Table Lamp

By Tom Dixon

Description

The Melt Portable LED Table Lamp was designed with the idea of creating an imperfect, organic and naturalistic lighting object. Created in collaboration with FRONT, a Swedish design collective, Melt is evocative of molten glass, the interior of a melting glacier, or images of deep space. When turned on, the shade becomes a translucent textured color. Melt's integrated LED and rechargeable battery allow it to be placed wherever it is needed to create the perfect ambiance.
