Stone Portable LED Table Lamp By Tom Dixon

Description

Marble has intrigued designers as a material for years. It is hard, durable, and long-lasting, but also elegant and rich in unique textures. The Stone Portable LED Table Lamp highlights the properties of its marble construction with a simple geometric form. The integrated LED light source is housed within a metal dome and reflected outwards to produce an enchantingly warm glow. Stone possesses a built-in dimmer and rechargeable battery, allowing it to be placed wherever it is needed to create the perfect ambiance.

Shown in brass / white morwad marble

Specifications
