Anisette Pendant By Vistosi

Description

The Anisette Pendant features a tulip-shaped, double-layered shade reminiscent of a traditional lantern but with a distinctly modern geometry. The inner and outer shades can both be oriented up or down for a total of four possible configurations, allowing for the creation of intriguing overlaps and silhouettes. The light source can also be positioned towards the center of the fixture for diffused ambient lighting, or towards the bottom for more focused, direct lighting.

Shown in matte white / white
