1951 Stacking Chair By Emeco

## Description

The 1951 Stacking Chair a reinterpretation of an old Emeco chair from 1951. The new version retains Emeco's DNA - simple, strong, utilitarian - yet looks forward. The handmade aluminum frame has a dynamic stance and is combined with a seat and back made from recycled plastic. Made in USA. Suitable for outdoor use. Stacks 6 high.

Shown in hand brushed aluminum / green polypropylene
