Lupe Wall Sconce

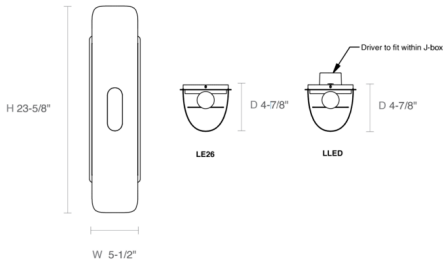

By Bruck

Description

Faint lines paired with organic texture in the Lupe Wall Sconce use its natural material to create a minimalist, modern effect. The shade is a panel of wood veneer that's bent into a tall half-oval around the wall plate. An opening in the front allows for the interior wood color to show through and for a peek of ambient light to shine anywhere around your home. Bruck's WEP (Wood Ecological Project) collection specializes in sustainable, natural wood luminaires. Every made to order fixture's unique character is nothing short of art. WEPlight solutions help cultivate a serene environment in any space. Designed, handcrafted, and painted by master artisans with reconstructed real wood veneer from Spain and assembled in the USA.Note: LED options are 120/277 dimmable and 0-10V dimming at 10%.
