Bau Picture Light

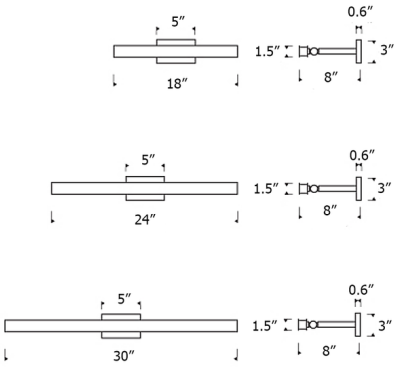

By Visual Comfort Modern

Description

Characterized by its two thin rectangular metal plates, the Bau Picture Light shows off a clean, modern aesthetic that enhances your space without being obtrusive. LED light is cast down from between the plates, delivering a soft warm glow for highlighting your wall art. The head pivots up and down 90 degrees for adjusting light direction. TRIAC, ELV, and 0-10V dimmable. The Natural Brass is a living finish that will patina and warm over time, enhancing its richness. If the patina becomes uneven or spotty, a brass cleaner can restore the finish. Note: Requires using a 2 x 4 inch single gang junction box, or using the included goof plate to completely cover a standard junction box.Note: The 8 inch size is not available with Natural Brass finish.

Shown in natural brass

Specifications
