Diza Round Mirror

By Currey & Company

Description

The Diza Round Mirror has a profile that is just as interesting from the side as it is from the front. This is because the wood pieces, which taper and are fitted in by hand, splay outward on both the exterior and the interior of the mirror. The depth this creates will make the decorative mirror a commanding element in a space. Both the very subtle crackle effect created by the woodgrain and the shape are textural details.
