Thanos Sculpture

By Currey & Company

Description

Creating the feel of flowing fabric from marble is a feat, as is evidenced by the Thanos Marble Bust Sculpture. Carved from different types of Italian marble, the Roman bust was inspired by the antiquity period of that great empire. The style of the base on which the bust sits is aesthetically in keeping with an antique sculpture. The color of the marble that makes up the clothing on the gold sculpture will make it a focal point in a room.
