Kallista Credenza

By Currey and Company

Description

The Kallista Credenza has a finish that enlivens the sycamore veneers cladding its doors. These are set into a credenza sitting atop a metal base in a brass finish, which matches the tone of tailored door pulls. The way the wood veneers are applied brings depth, texture, and movement to the credenza that is dressy enough for the most sophisticated home office and the most refined business settings. Aimee Kurzner designed this beautiful credenza. The four soft close doors open to four fixed shelves.

Shown in antique brass / sapphire blue

Specifications
