## Chaconne Chandelier

By Currey and Company

### Description

As complex as a profile gets, the Chaconne Chandelier has a circumference ringed in folded metal straps. Each piece is bent seven times to achieve the shape that is then wrapped around the frame. This is a labor-intensive process that takes a tremendous amount of concentration to ensure that the interconnecting straps end up the exact same length. Brightening the overall composition is the brass finish.

Shown in brass

### Specifications

COLOR . . . . . N/A  
BODY FINISH . . . . . Brass
