Samsara Chandelier

By Currey and Company

Description

The Samsara Chandelier is an overscale fixture made from thick reeds of rattan that encase the wire running through the fixture. Bending rattan this thick takes great skill and effort. In order to keep the aesthetics of the chandelier clean, the candle sleeves and hardware are in a saddle tan finish, and the thinner reeds that wrap these in place are tonally in sync. The Samsara will be a dynamic element in a coastal setting and is a strong entrant for a natural material story.
