## Distinct Grande Duo Table By Ferm Living

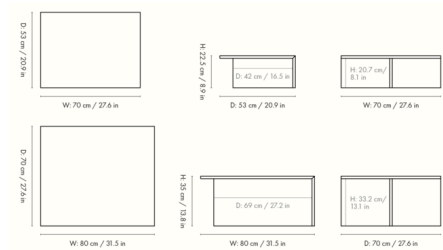

### Description

Originally inspired by Japanese minimalism, the Distinct Grande Duo Table features a pair of tables that feature the creation of a complex structure based on the repetition of simple rectangular planes. The tables can be nested together or placed separately to create a variety of possible configurations. The simple lines of the silhouette contrast with richness of the travertine's earthy textures. With the natural and diverse qualities of the sand-colored limestone, it provides rawness and tangibility that highlight the piece's architectural character.
