Luce Volante Pendant

By Ingo Maurer

Description

The Luce Volante Pendant is an elegant light fixture that seems to float in the air like a magic flying carpet. Its fiberglass body is rectangular with sinuous ripples throughout for a whimsical, organic aesthetic. The pendant houses an integrated Warm Dim LED (2700K to 1800K) with light directed both upward and downward for task and ambient lighting. Note: Includes power supply which does not fit inside canopy and will need to be placed in a remote location. Phase cut dimming (leading and trailing edge).

Shown in white / red
