Willydilly Pendant

By Ingo Maurer

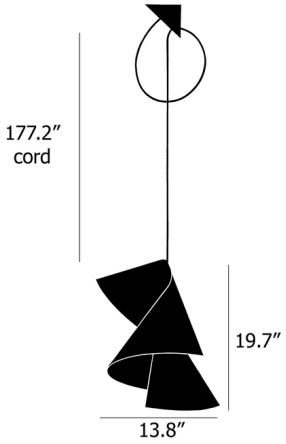

CE

Description

The Willydilly Pendant is constructed from high quality, translucent white cardboard which corkscrews around the light source and is attached to the cable by a fluorescent plastic clothespin. The shade is user-adjustable, with a tighter wrap obscuring the light source while a looser wrap opens the fixture up and allows more light to escape into the room. The shade's shape is mirror in the conical canopy, which also includes a cable loop to allow the fixture's height to be adjusted. Includes canopy mounting plate to cover 4 inch junction box.

Shown in white / white
