## Willydilly Pendant

By Ingo Maurer

### Description

The Willydilly Pendant is constructed from high quality, translucent white cardboard which corkscrews around the light source and is attached to the cable by a fluorescent plastic clothespin. The shade is user-adjustable, with a tighter wrap obscuring the light source while a looser wrap opens the fixture up and allows more light to escape into the room. The shade's shape is mirror in the conical canopy, which also includes a cable loop to allow the fixture's height to be adjusted. Includes canopy mounting plate to cover 4 inch junction box.

Shown in white / white
