Vargueno Chair By Arteriors Home

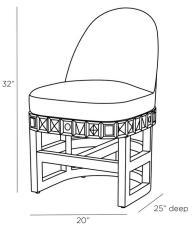

## Description

The Vargueno Chair features a gently curved silhouette accented by a wooden base with an elegantly carved pattern along the bottom of the seat. Vargueno takes both its name and design cues from the elegant ornamentation of traditional Spanish vargueno cabinets. Although Vargueno is inspired by the craftsmanship of a bygone era, the modern lines of the linen upholstered seat can also complement a contemporary dining room.

Shown in umber / white linen
