Continuum Track Plug and Cover Plate

By Et2

Description

The Continuum Track Plug and Cover Plate is for use with the Et2 Continuum track when using a remotely located driver. The cover plate is an electricity feed that mounts over a standard size junction box and is then wired to a driver (EDHW-2496). The supplied cable and connector attach directly to the end of a track. Not for use with surface mounted driver.Note Remote driver not included. Do NOT wire directly to line voltage.
