Universal Domed Color Select Fan Light Kit

By Kichler

Description

The Universal Domed Light Kit is designed for use with compatible Kichler ceiling fans. It offers a clean, soft aesthetic with its rounded edges, blending well with an array of fans and interior design styles. There is no visible finish trim, allowing the kit to easily match any fan finish. A high-efficiency LED light source shines through the white glass diffuser, providing bright, even ambient illumination. A pull chain turns the light on or off. Color temperature (CCT) can be adjusted to 3000K or 5000K using a switch in the light kit, and the light is dimmable down to 20%, accommodating various lighting needs, moods, and times of day.

Shown in white
