Fragile Table Lamp

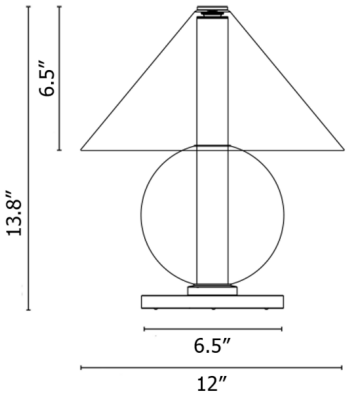

By Marset

Description

The Fragile Table Lamp is based on the archetypal form of a table lamp with a shade capping the base to direct light in all directions. However, Fragile offers a creative twist to this design by crafting the shade and base in glass to surround an LED tube that emits light along the length of the fixture. The lamp's simple geometric silhouette takes on an ethereal quality and seems to blend into its surroundings thanks to the see-through glass. Built-in dimmer switch located on cord.
