Fanaway Luna Ceiling Fan with Color Select Light By Beacon Lighting

Description

The Fanaway Luna Ceiling Fan is an advanced ceiling fan, showing off unique aesthetics and an energy-efficient design. Switched off, the fan blades automatically retract and are tucked out of the way, transforming the fixture into a modern industrial light. It creates open space in the room environment, accumulates less dust, and the unobtrusive, versatile look visually integrates into any room of your home. The LED module has dimming and adjustable color temperature (3000K, 4000K, 6000K), allowing you to set just the right mood. Its hand-crafted spiral cage adds industrial character, while the white linen interior shade softens the light for a warm, even glow. A hand-held remote control with wall cradle is included, and enables motor on/off, 3 speeds, light on/off and dimming. Reverse can be set using a switch on the motor housing. Accessories are sold separately.

Specifications
