Barnacle Large Cone Pendant By Siemon & Salazar

Description

This series revels in the material. The Thick
Barnacle Cone Pendant focuses on the way glass
forms and light play with each other. Unique light
refractions animate any surface nearby.
Extremely hot molten glass is manipulated by
hand to create ridges and valleys. Hand blown
and shaped in lead free crystal. No molds are
used, and each glass shape is unique. Made in
California and signed by Caleb and Carmen. Each
piece is handmade; dimensions and color may
vary slightly.
