Barnacle Large Cone Pendant

By Siemon & Salazar

Description

This series revels in the material. The Thick Barnacle Cone Pendant focuses on the way glass forms and light play with each other. Unique light refractions animate any surface nearby. Extremely hot molten glass is manipulated by hand to create ridges and valleys. Hand blown and shaped in lead free crystal. No molds are used, and each glass shape is unique. Made in California and signed by Caleb and Carmen. Each piece is handmade; dimensions and color may vary slightly.
