Cascata Chandelier

By CTO Lighting

Description

The Cascata Chandelier is a uniquely sculptural fixture thanks to its triangular frame and cascading sheets of wavy kiln glass. The chandelier's arms house an integrated LED light source which shines downwards through the undulating glass to create a dazzling display. Cascata can be displayed over a round or square dining table or installed in a stairway or atrium to showcase its triangular frame from all angles. Available with Ceiling Rose canopy (with LED driver inside) or flush Mounting Plate (with remote LED driver). Note: Due to the weight of the fixture, additional ceiling support is required.

Shown in satin brass / wavy kiln glass
