## Faux Horn Sculpture Set of 2

By Currey and Company

### Description

The Faux Horn Set includes two tan sculptures shaped like rams' horns fitted to black metal stands that create the illusion they are artifacts. Made from a lost-wax technique where boiling aluminum is poured into a mold covering an original wax sculpture that melts away, these are truly artisanal pieces. Once set, there is a very long process of refining the metal to give it patina.

Shown in black / rustic
