## Morningside Ceiling Light

By Currey and Company

### Description

The Morningside Ceiling Light has curved rattan stems and a circlet in the same material that holds the milky glass bowl in place. The warmth of the natural material is a contrasting element to the pale glass, and the black metal hardware adds an even stronger variation to this overall composition. Though the woven semi-flush is made of a natural material, it is contemporary in its design. It is also fitted with an integrated LED source.

Shown in black / natural / white

### Specifications
